Send a Houzz Gift Card.Its a Bosch WAS2016UC. I downloaded the manual from Bosch but still cant figure it out. Does anyone know where is for what I think the middle one is for fabric softener. Also, can you use liquid bleach. And, if so, where does that go In my search for this information Ive been really horrified to read about all the negatives experiences with this washer due to mold and smell. I am really hoping for the best here. Im kind of at my wits end. Thanks to all for any info. The other one has a couple of comments.See More Kitchen layout Advice please Q Comments 25 I think my title is misleading. Im asking for help as far as the layout of appliances and cupboards. We do not want to move walls. I could then have room for a cooktop on that sink wall. Is this a good idea. The sink and window would therefore not be centered in the kitchen, would this matter. If I move the sink and window to accommodate a cooktop on that counterspace.It seems like itd be cumbersome to have it opposite the sink with the island inbetween. If it stays on that short back wall, is it too far from the sink, if I move the sink down And where is best spot for a wall oven. This is what my family has come to expect, as we are not a formal family. The dining room is too small for all of us so we set up extra tables in the foyer and its kinda fun and cozy. I imagine our new house to be similar, except my island will be much bigger and Im excited about that. On a daily basis, just my husband and I dont need seating on the long end of the island. Q Comments 45 The oyster white will work.

Then you can add color which is changeable when you feel the need in accessories. Very well done woodwork. This resource is a keeper. It looks exactly like the suggestion in the photo..See More holes for both soap dispenser and detergent dispenser or just one Q Comments 17 You can always drill the hole later, however, its more expensive than you may think. Once its drilled somethings got to go in there. I changed a sink that wasnt centered recently. My retrofitted apron sinks must be

centered precisely, so that knocked the already drilled faucet hole off. I filled it at no extra charge. Insanely close view. Standing at the sink it disappears. You may may not be as lucky. This would never fly on a white stone.. See More mskathyny Original Author 8 years ago Thank you so much, dadoes!! You saved the day for me. I assume you don't use bleach. Or only powdered bleach in the II compartment. Have a lovely, clean, holiday! Where is this? How do I do this? Oh, I guess I'm just supposed to figure it out via trial and error. Also, don't use cheap fabric softener and then as little as possible. Do believe Ecover is plant based. I picked it up on the fly at the health food because the fragrance was OK. Pinky, I'd love you to try it and get your opinion. Will send you some. I think it gives great results. It's my new first choice. This video was actually pretty helpful it's an 8 minute demo on both the Bosch Axxis washer and dryer. I actually thought you put the washing liquid in the right compartment, not the left despite dadoes comment, so the video was great to watch and get clarification. Thanks all, and thanks to mskathyny for the question clearly not a dumb one after all! Helps prevent detergent residue build up. Best to check the instruction manual to confirm which. Majority of manufacturers have them available at their web site via model number search. I let it run with no clothes and let it mix with the water for about 20 seconds and then add clothes.

If so, does pod go in the far left compartment. Thumbs down and no thank you I just bought a second hand Bosch Maxx from my sister and is my first front loader. I agree with Terry re symbols instead of words to show what to do. Nuts! So it goes, Prewash, main wash and Bleach. What detergents are prewash. I pour softener in the 3rd compartment as it goes straight into the washer. Usually don't bother with the middle or II compartment. Any specific help. I also pour bleach in the 3rd compartment or mix with the 1st compartment. I Use MELLALUCA products and love them.
