Sonata

NP30

 Cambridge Audio

Jouw muziek + onze passie

This menu allows the selection of IP mode between static or dynamic. This process is completely automatic and. However, sometimes it is useful especially in large networks to know the exact IP address of each device, this can only be done by using static IP. When using Static IP you will also need to enter the network mask you wish to. Only select static. IP if you know exactly what you are doing! This option scans all available WiFi frequencies for wireless networks and a list of available networks will be presented. If a particular network requires you will now be able to enter the fixed IP address you wish to give your NP30. The NP30 will now prompt you to enter the required network mask for the. You will now need to enter the default gateway's IP address used by the NP30. Finally, you will need to enter the DNS IP address for the NP30. On some. The NP30 will then connect to the network using a saved key if you have. The NP30 can handle keys in WEP, WPA and WPA2 formats. the choice of. Signal warning. The NP30 can display a warning if the WiFi signal strength is low enough to. Yes or No. WiFi Region. Different parts of the world use slightly different frequencies for WiFi. For best. It is possible to connect your NP30 to your network via an available Ethernet. By default the unit is in AUTO mode. In Auto mode once the NP30 has established. You can alternatively configure the NP30 to permanently only use the wired or. Only and Wireless Only. Register. This will display a key that can be used to register your NP30 on the UuVol. Open www.UuVol.com from your Internet browser. See the section earlier on. UuVol registration. Note the generated key lasts for about 10 minutes, if you don't use it in that. UPnP Name. This menu allows the setting of the declared UPnP Client name for your NP30. This is the name other UPnP devices such as control points and remote Apps. WiFi Strength. Displays the strength of the received WiFi Signal.

<http://clini.ca/footcenter.com/images/brother-4100e-fax-machine-manual.pdf>

Note If WiFi has been turned off Ethernet mode only the signal strength will be displayed. Selecting Wired Only will cause the NP30 to reboot and then only use its Ethernet connection to communicate with the network. Selecting the Wireless. Only will cause the NP30 to reboot and only use its WiFi connection. Selecting Version. NP30. Turn the rotary dial to scroll through the various items. The Service Pack is the currently loaded firmware software. It's a good idea to note the Serial Number and Product Code are not normally required by the NP30. Note This Serial Number is not the same as the physical serial number on the NP30. Upgrade Firmware. Remote Code. There are two options. If Option 2 is selected on the NP30 then the remote handset must also be set to Option 2. By inserting the batteries without the. Option 1. UuVol Remote. Use this option to download new firmware for the NP30 from Cambridge Audio. If you select this item the NP30 will contact our server and see if a newer version of software is found. The NP30 will prompt you if you want to download it. At this stage, you can press the. NP30's A Firmware upgrade may be required. Note Ethernet lead or switching off your router etc. Language. Allows you to change the display language used. A list of the currently supported languages will be shown. Select your preferred language. Note The NP30 will then restart in order to start again in the new language. Factory Reset. Puts all the settings back to their defaults as they were when they left the factory. Or The application allows full control of the NP30 including UuVol Radio, Streaming Services, UPnP Media, Presets, Queuing and more. It also supports display of Album artwork and Station logos where available. To use UuVol Remote you will need a WiFi network or Access point for the NP30. Search for UuVol Remote on the Apple App Store or browse www.uuvol.com.

com for The NP30 will ask you if you are sure you want to proceed before performing a factory reset, you will lose all your presets and any saved settings. Troubleshooting If you experience any trouble with your NP30, then you may find it useful to visit www.cambridgeaudio.com. Frequency Response. Signal to Noise ratio. Total correlated jitter. Streaming Protocols. Playlists. WiFi. WiFi Encryption. Ethernet Trigger In. Mains inlet voltage. Standby consumption. Max power consumption. Dimensions W x D x H. Weight. DHCP is however the recommended method.
